

Circle of Inspiring Women for a Sustainable Future

“Building bridges of cooperation”

A Network of Women, for Women

At a time of international political and financial challenges, women leaders have developed significant professional and social activities; thus, having positive influence in their communities and beyond. From local to global level, women’s excellence provides an important incentive for younger generations to pursue their vision; new opportunities and innovative ideas for a sustainable future.

To this end, being aware of the power of constructive dialogue and synergies, we aim to bring together inspiring women from all sectors of political, business, social and academic communities and civil society to share their knowledge, skills, expertise and resources with other women; to inspire them to move forward and eventually meet their goals through concerted efforts.

Our objective is to create an open, interactive and mutually supportive network of women to generate partnerships and dialogue across regions in order to enable the advancement of women at local and regional levels.

- *Successful role models from local to global and vice versa*
- *Gender discrimination, a challenge to success*
- *Financial crisis and women excellence*
