WHAT IS SEAFUTURE2018?

it is the sixth edition of the event dedicated to the sea at 360°

it is a multi-faceted event, whose targets are:

Industry, Young People and Innovation
It is the event for SMEs in the sphere of blue economy and environmental sustainability and the only international appointment dedicated to refitting and upkeeping of new and to-be-disposed naval units with the most advanced technological solutions.
It is a Hub, i.e. an open-innovation platform, able to create business connections, synergies among national and international big players, SMEs, university and research institutes, innovative start-ups, technology clusters, marine and maritime ones, Italian Navy, Foreign Navies and institutional stakeholders.
WHY?

To create synergies so that technological innovation, research and environmental protection become the engine to strengthen a renewed blue economy, which is sustainable and ready for the future.
First target:

Offering SMEs a fertile ground to secure agreements which will allow them to grow in terms of partnerships, know-how, strategy and technology sharing, in order to boost the turnover of the entire industry sector.
Second target:

Promoting blue growth through enhancing the potential of the seas, oceans and Italian and European coastlines, to generate new opportunities for jobs and new companies in a sustainable way
HOW?

4 days of conferences and seminars
30 Foreign Navies
300 exhibitors
1000 advanced b2b meetings
9000 sq m of exhibition area
in the Navy Base of La Spezia
For young people

As many as seven compositions will be selected to participate at Seafuture 2018. Awards will be assigned to the best three graduation theses on the topics of dual, green technology and industrial design. The winner will participate in the Blue Growth Summer School of Ghent University in Belgium.
Participants

Large national and foreign companies, SMEs, Italian Navy and Foreign Navies, research centres, technological clusters, marine ecosystem protection organisations, innovative marine start-ups, stakeholders and sector associations
Seafuture 2018 is organised by:

DLTM, Consorzio Tecnomar, AIAD, EIEAD, with the cooperation of Blue Hub, Special Agency of the Chamber of Commerce Riviere Di Liguria and with the support of the Italian Navy
