

Public engagement – THE way to improve monitoring and to prevent marine litter

Mihaela Mirea-Cândea – Executive Director

Mare Nostrum NGO
Constanta, Romania

The principle

Polluter-pays principle

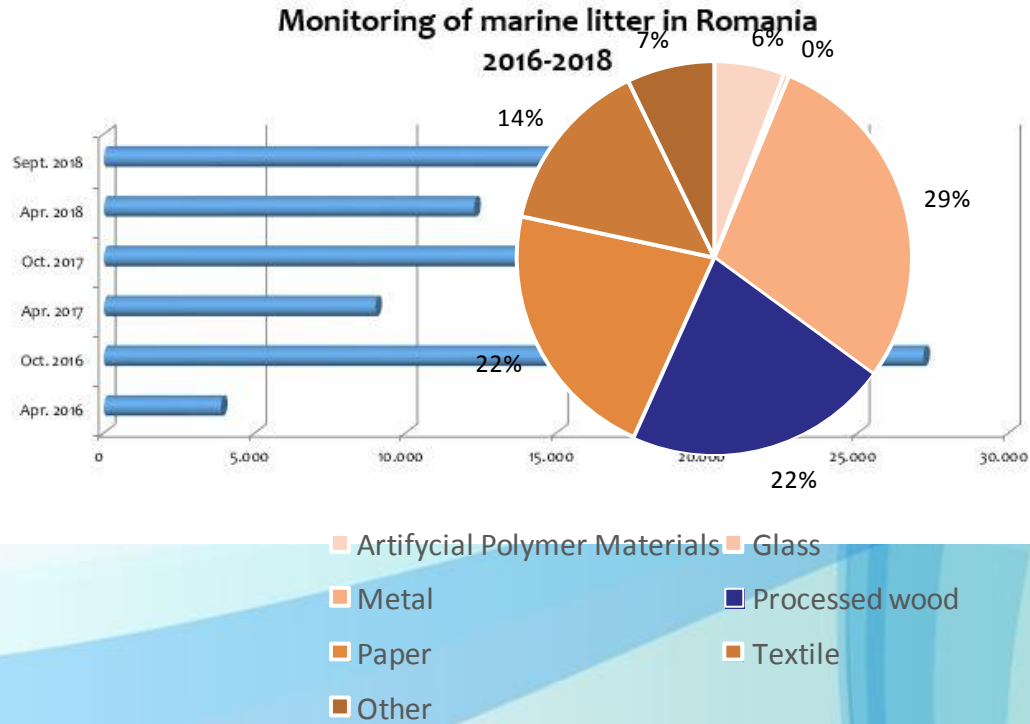

**Public/Humans
generate waste**

See

Understand

DIY

Be involved

MML – 17.01.17 and 5.03.19

Relevant measures:

- ✓ Increase raising awareness
- ✓ Apply penalties
- ✓ Provide infrastructure and innovative technologies

CHANGE

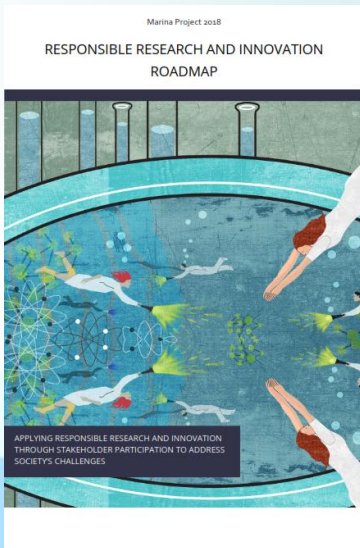

The rider and the path!

Jonathan Haidt

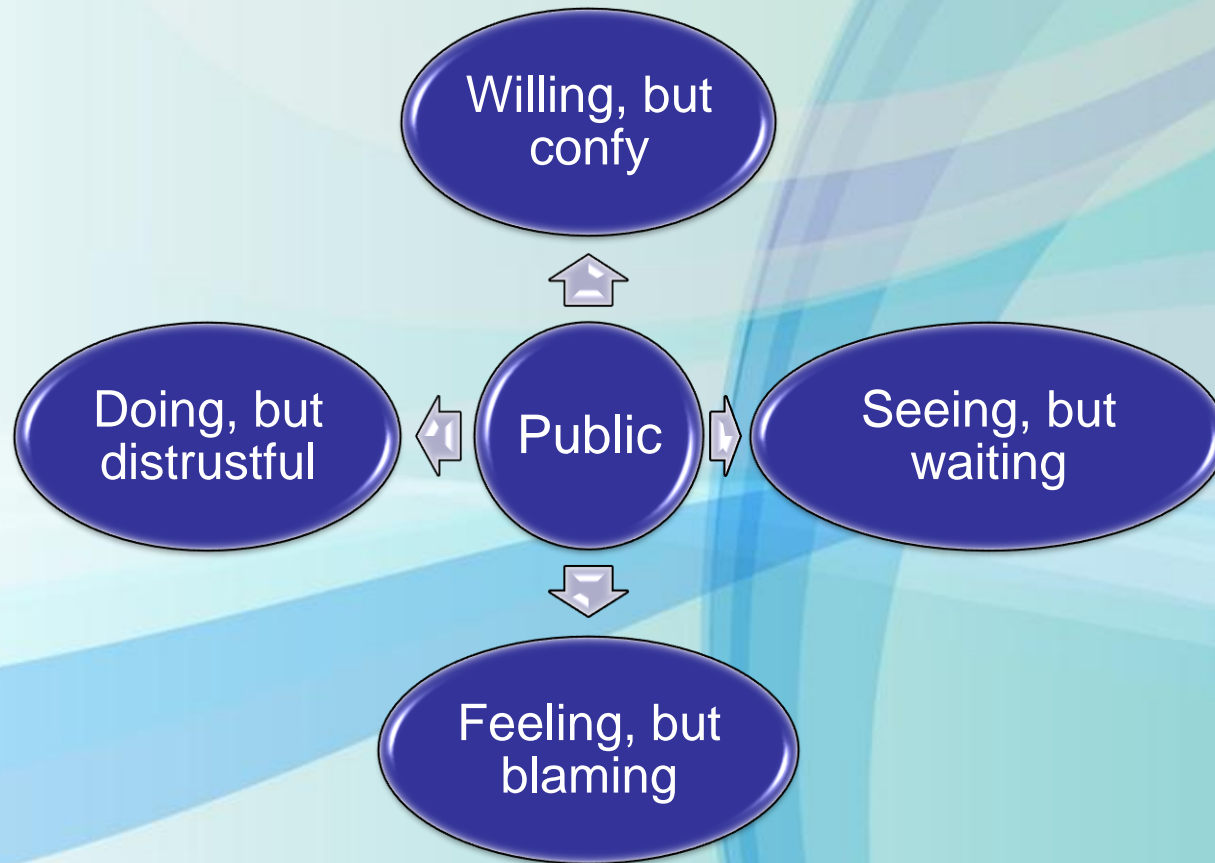

Good practices

Marine litter status on Black Sea shore through **citizen science**

Back to the public again!

Manifesto

RESPONSEABLE

MARINA and Responseable have received funding from the European Union Horizon 2020 Research and Innovation Programme under grant agreements No 710360 and No 101016733

Manifesto for building an effective Ocean Knowledge System

Key principle

Ensure accountability & responsibility of all involved in the ocean knowledge system, including knowledge end-users

What to do?

Engage

- Science
- Education
- Decisions

Build trust

- Ideas come true
- Measures become real

Be part

- Responsible
- Useful
- About all
