Drops of Knowledge – Discovering Black Sea Facts & Figures, a new initiative by ICBSS

The International Centre for Black Sea Studies (ICBSS) is announcing the launch of its new initiative about the wider Black Sea region, "**Drops of Knowledge – Discovering Black Sea Facts & Figures**".

Drops of Knowledge will use existing information, statistics and data from multiple sources and visualize them into comprehensive infographics with the aim to become a one-stop shop for social, economic and environmental data for the countries of the Black Sea region.

Overall, the **Drops of Knowledge** aim, not only to address an existing knowledge gap, but more importantly, to raise awareness about pressing issues and highlight good practices, with a view to mobilising stakeholders to delve deeper into why and how.

DISCLAIMER: The data, findings and conclusions presented in the 'Drops of Knowledge' do not necessarily reflect those of ICBSS or its affiliated institutions.

About the ICBSS: The International Centre for Black Sea Studies (ICBSS) was founded in 1998 as a non-profit organisation. It has since fulfilled a dual function, a) it is an independent research and training institution focusing on the wider Black Sea region, b) it is a related body of the Organization of the Black Sea Economic Cooperation (BSEC), and its think-tank. The ICBSS pursues policy-oriented research and promotes knowledge on the Black Sea region both within and outside its boundaries, and fosters multilateral cooperation among the BSEC Member States as well as with their international partners.
