**19.30 – 21.30 | Networking dinner**

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101000240.

## About the workshop

The “**2030 Blue Roadmap for the Black Sea**” is the product of a co-work process initiated under the BRIDGE-BS project, with the aim to propose a series of actions and measures to promote sustainable Blue Economy in the Black Sea based on the BRIDGE-BS results.

The **Policy Workshop for a "2030 Blue Roadmap for the Black Sea"** will bring together project partners and Black Sea national and regional policy stakeholders to discuss and fine-tune the **draft “2030 Blue Roadmap for the Black Sea”**, to ensure the effectiveness and impact of the proposed exploitation actions\* in relation to policy needs.

The event is organised by the International Centre for Black Sea Studies ([ICBSS](#)) in cooperation with the Technological Centre for Sea ([CETMAR](#)), under the EU Horizon 2020-funded project [BRIDGE-BS](#).

Participation is **by invitation and onsite only**. The event’s working language is English.

*\*The **Blue Roadmap** will introduce a set of **targeted exploitation actions** designed to promote the uptake of the BRIDGE-BS project results, bridge science-policy gaps, and ensure long-term continuity and application of the knowledge and tools generated under the project.*

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 101000240.
